

ADVANTAGES

- Easy-to-remove dust drawers
- Plug & Play
- Toolless cam-lock cartridge removal
- Integrated spark trap
- Built-in safety monitoring filter

Application	Indoor applications, especially where noise and/or space constraints are a concern Recirculation of air back into facility for non-hazardous dusts
Installation Options	The plug & play design allows you to move the equipment around in case you have to relocate your process machinery.
Comment	Options: The Gold Series Mini has optional inlet configurations to accommodate different types of dust. In lieu of the dust drawers, the unit may be ordered with an optional dust hopper and leg support structure for discharging dust into a 55-gallon (208 l) drum or another disposal device. Additional options: explosion venting, aluminum and stainless steel flex ducts, a spark-resistant flex hose, HEPA filter upgrade for the safety monitoring filter and outlet weather cover.
